

# Mark Ndubuisi

## Frontend Developer

✉ Tochukwu    📧 simplex-t  
in Mark Tochukwu    📍 Nigeria

### 🔧 Technical Skills

- **Web Development:** HTML, CSS, TailwindCSS, JavaScript, TypeScript, React, Git, Github.
- **Microsoft Office Suite:** Word, Access, Excel, PowerPoint.
- **Design:** Adobe Illustrator, Adobe Photoshop, CorelDraw.
- **Exposure:** Redux, Framer Motion, React Query, Context API, TanStack, NextJS, Java.

### 🎓 Education

**UNIVERSITY OF NIGERIA, NSUKKA.**

09/2022 – Present

Bachelor of Science (BSc) in Computer Science

### 👜 Professional Experience

**Frontend Engineer**

**Team-G Tech Jaunty Hackathon**

**02/2024**

- Tasked with transforming stunning UI designs into scalable frontend application for smooth user experience.
- Implement APIs from the backend for quick and optimized fetching of user data and other data.  
Utilized React, React-Router-DOM, Context API to:
- Develop nice user interface and managed various states.
- Integrated the login and signup features for the app.
- Communicated well with my team members for smooth work experience and fast growth.
- Carried other slow team members along.

**Frontend Engineer**

**GodTeam, Pipeops Hackathon**

**04/2024**

- Collaborated with other developers to build a full stack application that solved real-world problems.
- Worked together with the backend developer to integrate APIs for smooth interaction between the database and the user interface.
- Worked with a smart contract developer to implement some blockchain features like smart-contract payment.

**Computer Operator/Tutor**

Mentus Computer College, Enugu

- Carried out technical operations like computer software maintenance, software installation, and machine maintenance.
- Carried out administrative operations like document formatting and layout, scanning and digitizing documents, managing print queues and print jobs, and assisting clients with minor software issues.
- Carried out Instructional services like one-on-one student tutoring, conducting small group study sessions, developing study materials, and monitoring student progress and providing helpful feedbacks.

### 📁 Projects

**Fast Pizza Co** [🔗](#)

*An online platform where users can order from different varieties of pizzas and get it delivered at their doorstep.*

- A simple user registration form that takes the name of user.
- See list of available pizzas in stock and their individual different prices.
- Utilized ReactJS, TailwindCSS, ContextAPI, Git, Vercel.

**Roomie Match**

*A webpage where students can find and match with the perfect roommate for them and find rooms for sale.*

- Utilized ReactJS, React Router DOM, CSS Modules, Fetch to fetch, Git.

### Other Skills

- Communication Skill
- Team building Skill
- Quick Adaptability skill
- Pixel-perfect translation of design
